LISTING SERVICE

LISTING No. 7165-1157:121 Page 1 of 1

CATEGORY: Control Unit (Non High-Rise)

LISTEE: Digital Monitoring Products, 2500 N. Partnership Blvd, Springfield, MO 65803
Contact: Terry Shelton (417) 831-9362 FAX (417) 831-1325

DESIGN: Model NRL-101 Interface Line Card. This module provides a primary signaling path over an Ethernet or Internet connection. To be used/installed only in the Sur-Gard SG-MLR2E receiver. When installed and connected to an Ethernet or Internet connection the NRL-101 requires the use of the NRL-102 Network Interface Card. Refer to the listee's data sheet for detailed product description and operational considerations.

RATING: Primary 16.5 VAC

INSTALLATION: In accordance with listee's printed installation instructions, applicable codes and ordinances and in a manner acceptable to the authority having jurisdiction.

MARKING: Listee's name, model number, electrical rating, and UL label.

APPROVAL: Listed as signal system control unit subassembly for use with separately listed compatible fire alarm control units and initiating and indicating devices. Refer to listee's Installation Instruction Manual for details.

05-15-03KK

This listing is based upon technical data submitted by the applicant. CSFM Fire Engineering staff has reviewed the test results and/or other data but does not make an independent verification of any claims. This listing is not an endorsement or recommendation of the item listed. This listing should not be used to verify correct operational requirements or installation criteria. Refer to listee's data sheet, installation instructions and/or other suitable information sources.
